### Bring your device

Access your OneDrive, Google Drive and Dropbox files and personal calendar directly on TeamWorks Room. Launch and control meetings quickly through your device from anywhere in the room by simply scanning a QR code.

### Leverage dynamic content

Add and interact with dynamic content in a collaborative whiteboard. Draw and work with multiple objects including images, PDFs, Microsoft Office® files, sticky notes and more. Everything is synced with all connected participants.

### Collaborate and share

Wirelessly screencast up to 8 devices to the SMART display with native Airplay, Google Cast and Miracast. Share content remotely and increase collaboration with mark-up capabilities on shared screens.

### Save a meeting recap

When the meeting ends, a customized PDF recap is ready to save and share with meeting participants.
